

Problem

You are given two integers A and B. Your task is to calculate their sum without using the + or - operators.

Use only bitwise operators to compute the result.

Input Format

A B

Constraints

$-10^9 \leq A, B \leq 10^9$

Output Format

Print a single integer representing the sum.

Language Java 7

```
1  import java.util.*;
2
3  public class Solution {
4      public static void main(String[] args) {
5          Scanner sc = new Scanner(System.in);
6          int a = sc.nextInt();
7          int b = sc.nextInt();
8          while (b != 0) {
9              int carry = a & b;
10             a = a ^ b;
11             b = carry << 1;
12         }
13         System.out.println(a);
14     }
15 }
```
